# CHIPS AND SEMICONDUCTOR TEHNOLOGIES

## CONSULTANCY CATALOGUE

Version 1.0

**CC CHIP.SI**  
SLOVENIAN CHIPS  
COMPETENCE CENTER

# **Slovenian Competence Center on Chips and Semiconductor Technologies**

Consultancy Catalogue v1.0

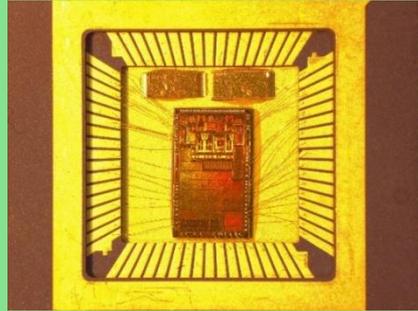

26.02.2026

## MAIN AREAS OF CONSULTANCY

### ADVISING ON EQUIPMENT ACCESS

### TECHNICAL PROOF -OF-CONCEPT

### FACILITATING TEHNOLOGY TRANSFER

### SUPPORTING ACCESS TO FINANCING

## ABOUT THE CC CHIP.SI AND CONSULTANCY CATALOGUE

### Use our consultancy services to boost your innovation.

Slovenian Competence center on chips and semiconductor technologies - CC Chip.si offers trainings and consultancy services to **SMEs, start-ups, spin-offs, large enterprises, research organizations** and other stakeholders.

The catalogue highlights basic consulting services on **equipment access, proof-of-concept development** in microelectronics, photonics, quantum technology and nanofabrication. We also provide support on **technology transfer, IP strategies, business planning, and access to information on funding and venture capital.**

**Should you not find the service you require, please do not hesitate to contact us for further assistance.**

The CC Chip.si team

University of Ljubljana, Faculty of Electrical Engineering – UL FE

University of Ljubljana, Faculty of Computer and Information Science – UL FRI

University of Maribor, Faculty of Electrical Engineering – UM FER1

University of Nova Gorica, Faculty of Natural Sciences – UNG

Jožef Stefan Institute – JSI (IJS)

Centre of Excellence for Nanoscience and Nanotechnology Ljubljana – NANO

# ADVISING ON EQUIPMENT ACCESS

*We connect you to the right technology, equipment and facilities.*

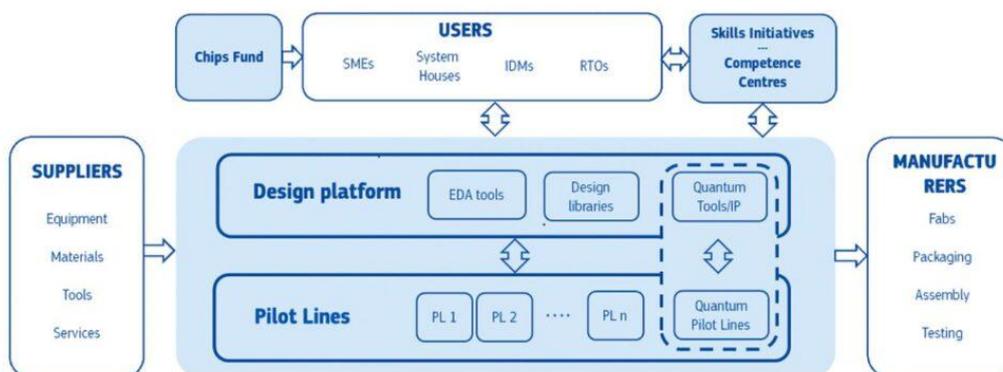

## National Infrastructure

- Identification and selection of the proper equipment for your tests
- Connecting you to experts and service providers
- Assisting with the reservation of the equipment

## EU and international infrastructure

- EU Virtual Design Platform (EuroCDP)
- Chips JU Pilot Lines
- Open-source design tools and open PDKs
- Other services for chip design, prototyping and fabrication

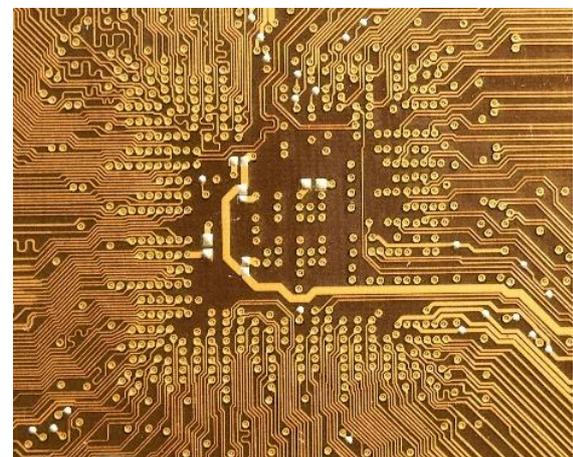

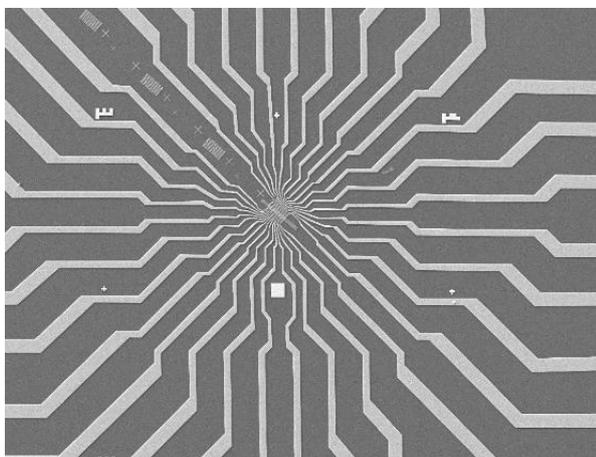

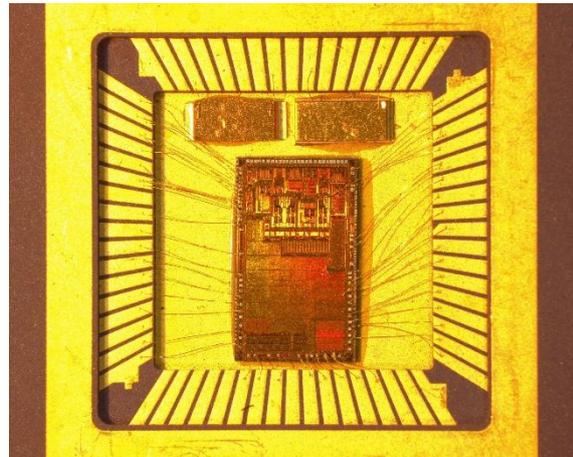

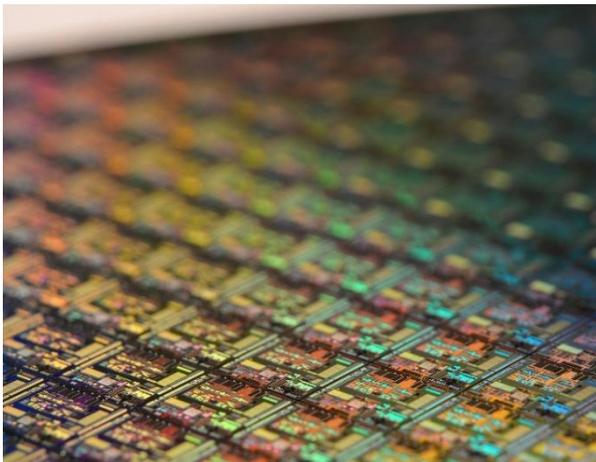

## **TEHNICAL PROOF-OF-CONCEPT**

***Connect with experts, test your ideas and innovation concepts.***

**High tech equipment, dedicated trainings and consultancy on:**

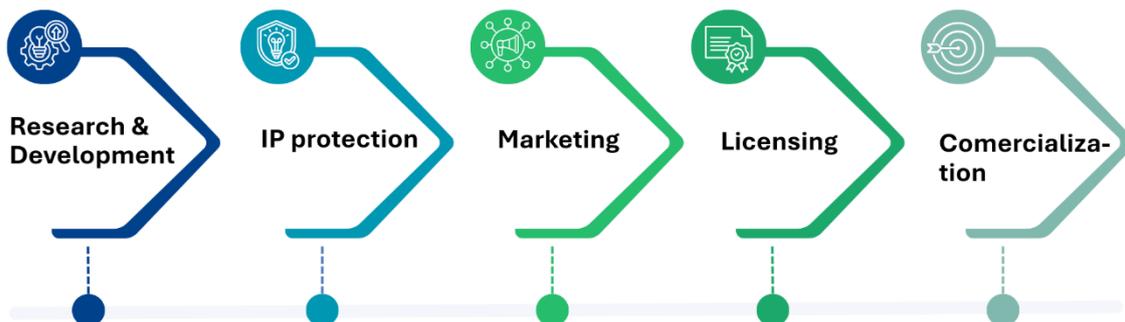

- Feasibility study of realization and characterization of specific microelectronic and integrated photonic structures (with sub-micron CMOS process)
- Feasibility study of nanofabrication/characterization of selected functional structures (quantum and other technologies)
- Advising on electronics integration to Application Specific Integrated Circuits (ASICs) for your application
- Consulting on suitable technologies for your ASIC development
- Providing guidance in fabrication and testing of early demonstrators and prototypes
- Proof of concept on graphene and other two-dimensional based electronic devices
- Electro-optical properties of electronic devices based on organic semiconductors and hybrid organic-inorganic semiconductors
- Other proof-of-concept studies

## FACILITATING TEHNOLOGY TRANSFER

**Boost your innovation with our experts on technology transfer.**

- Consultations on technology development directions
- Transferring prototypes to production
- Consultancy for semiconductor scale up production

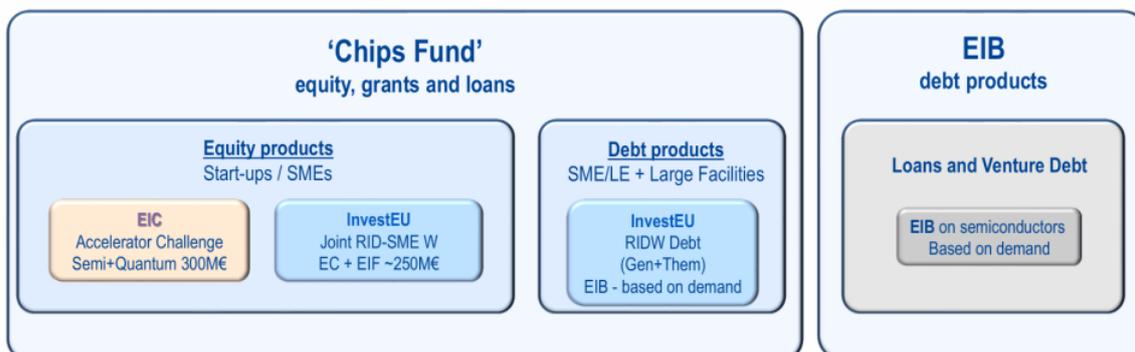

## SUPPORTING ACCESS TO FINANCING

**Be aware of funding opportunities.**

- Support to companies on searching national/EU calls and partners, improve the leveraging of EU funding
- Guidance to access EU Funds and Ventur Capital
